

KANSAS SCHOOLS

As part of a purchase program negotiated with ESSDACK and Apple Computer, you have the opportunity to purchase eMac, iBook, MacBook and iMac systems at great discounts for a limited time.

By grouping your purchase with other schools you can leverage a volume discount available with Apple on select products. There is no minimum quantity required.

Simply select your systems, send a purchase order to ESSDACK for your systems and Apple will ship your systems directly to your district.

This is a great chance to pick up the few systems you may still need prior to school starting or replace a lab with great discounted computers. Or give Apple a look for the first time by trying out a MacBook at a savings.

If you have any questions, please contact:

Apple Discounted Buy Program for ESSDACK Schools

August 5 - September 25, 2006

EMAC

Simple, Affordable, Powerful

The eMac puts the whole computer — including 17-inch (16-inch viewable) flat CRT display, 18-watt speakers, 56K modem and optical drive — into a single, attractive package. Delivering even more value and performance for your investment, the eMac offers a simple, clutter-free, all-in-one design.

The eMac features Mac OS X Tiger and the award-winning iLife '05 suite of applications, so you can make photo slide shows, movies, compose music, research on the web, and much more. Choose the combo drive eMac to burn CDs and play DVDs, or choose a SuperDrive-equipped eMac to burn your own double-layer DVDs at 8X speed. Every eMac has two fast FireWire 400 ports built-in, plus five USB ports: three USB 2.0 on the computer and two USB 1.1 on the keyboard.

We have three options to best meet your needs! **With savings from \$150 to \$300 per system!**

Lab Recommended Configuration

17-inch flat CRT display built-in
1.25GHz PowerPC G4
256 MB DDR333 SDRAM

- Quicken 2005 for Macintosh
- 2005 World Book Multimedia Reference Suite
- Nanosaur 2 and Marble Blast Gold
- Microsoft Office 2004 for Mac Test Drive

IBOOK

iBook G4 offers everything you need to enjoy the digital life to go — in an incredibly affordable package that weighs as little as 4.9 pounds.

Stylish and surprisingly rugged, your iBook is built with ultratough polycarbonate plastic — the same material used in bulletproof glass — with an internal magnesium frame for added strength. And there are no doors or protruding elements that can accidentally break off or snag on clothing.

Built into every configuration of the iBook G4 family: AirPort Extreme wireless technology based on the 802.11g standard, plus Bluetooth 2.0+EDR, Ethernet port and 56K modem.

We are offering two screen sizes so you can equip your students or teachers OR BOTH! All with savings from \$350 to \$400 per system!

Student Recommended Configuration

1.33GHz PowerPC G4
512K L2 cache @1.33GHz
512MB memory (DDR333 SDRAM)
12.1-inch TFT Display
1024x768 resolution
ATI Mobility Radeon 9550
32MB DDR video memory
40GB Ultra ATA hard drive
Combo Drive (DVD-ROM/CD-RW)
Built-in AirPort Extreme and Bluetooth 2.0+EDR
Scrolling Trackpad and Sudden Motion Sensor
AppleCare Protection Plan

IMAC

For a high performance student/teacher workstation. **Special Education Configuration**

The world's best designed and easiest-to-use desktop uses the Intel Core Duo processor with two execution cores on a single chip to provide a new generation of power to the user.

The iMac includes Mac OS X Tiger and the iLife '06 suite of applications, making it perfectly tuned to serve as the center of your digital life at school. Create photo albums, watch or make a movie, start a research project and much more — right out of the box.

From hard drive to stereo speakers to optical drive and more, all the components of the iMac are enclosed within the widescreen flat-panel display. Also standard in all iMac models, AirPort Extreme lets you connect to any industry-standard, 802.11g-compatible wireless network or go wired with Gigabit Ethernet.

Save on the new special education configuration

- PhotoBooth
- Big Bang Board Games
- Comic Life
- Omni Outliner

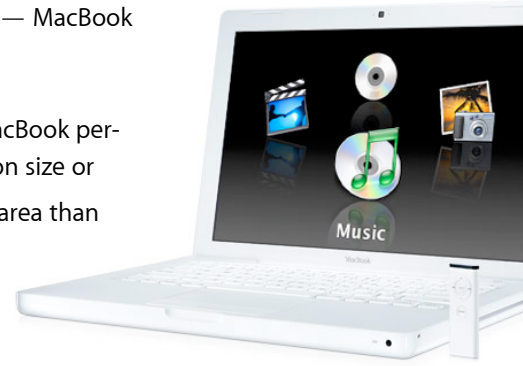

MACBOOK

Powered by the Intel Core Duo, built from ultratough polycarbonate, just 1.08 inches thin — MacBook combines performance and portability like never before.

With the revolutionary Intel Core Duo — with two processor cores on a single chip — MacBook performs up to five times faster than the previous generation iBook without compromising on size or style. At 1280 by 800, the 13.3-inch glossy widescreen display delivers 30% more viewing area than the iBook or 12-inch PowerBook. And the ultrabright LCD makes photos and graphics come alive with color. The iMac includes Mac OS X Tiger and the iLife '06 suite of applications, making it perfectly tuned to serve as the center of your digital life at school or at home.

Measuring just 1.08 inches thin, your MacBook still offers a full complement of ports and connections, including mini-DVI video, fast Gigabit Ethernet, and optical digital/analog audio. Plus you get the innovative MagSafe Power Adapter, a power cord that's held in place magnetically, so if someone should trip over it, the cable disconnects harmlessly and your MacBook stays put.

Save on this incredible new member of the Apple Laptop family!
